

DOCTORS ARE NEGLECTING TO COMPLY WITH THE LAW

PREVENT SPREAD OF CONSUMPTION

Ordinance Provides For Fumigation After Tuberculosis and Reports

MEASURE OF CITY COUNCIL.

Enacted Last June at Suggestion of the City Board of Health Not Enforced.

THE DISEASE IS INFECTIOUS.

In view of the anti-tuberculosis wave all over the country. It has been asked what Paducah was doing toward alleviating the frightful mortality from this disease.

Several city officers said they did not remember of the general council passing any ordinance regulating the handling of tuberculosis cases. But an investigation of the records show that such an ordinance was passed and signed June, of this year.

Health Officer Dr. W. T. Graves, when asked about the methods of handling such cases, said he did not know whether there was an ordinance, requiring fumigation after death from consumption. When informed about the ordinance, he said, it had escaped his attention when passed.

This law requires physicians to notify the health officer whenever death occurs from consumption, so that he may fumigate in the same manner as in scarlet fever and other contagious diseases. They have not done this and the ordinance consequently escaped the attention of the health officer.

Dr. Graves said this morning that such a law is beneficial and that he intends to enforce it.

This ordinance was passed at the instance of the board of health and it pronounces tuberculosis infectious. For violation of its provisions a fine of \$5 to \$100 is provided.

CALDWELL FILL.

May Succumb to Encroachments of Water.

City department officials are anxious over the condition of the new Caldwell street fill since the river has backed up into the hollows, and fear a duplication of condition of two years ago when the first fill going west on Caldwell street gave way and collapsed the bridge.

COLORFUL FRIENDLESS

Will Be Fed on Thanksgiving at 625 South Ninth Street.

The Colored Home of the Friendless association will serve a big Thanksgiving dinner to unfortunates of that race at the residence of James Owen, 625 South Ninth street. All members who attend are requested to bring baskets of food. The colored association is a new one, and hopes to erect in time a home for colored persons without friends. Not only children but persons of all ages are to be cared for.

DOG THIEVES BUST.

Several Have Been Stolen and Set Free Recently.

Mr. James Nagel has recovered the fine bird dog lost or stolen two weeks ago. The dog came home. He appeared to have been badly used. Some one set free Mr. Will Dicke's fine bull terrier yesterday and she was missing the greater part of the day. Mr. Robert McCune, the sign writer, lost a fine pointer pup valued at \$25.

Prof. Deal Doing Well.

Prof. William Deal, who went from Paducah to Pine Bluff, Ark., is doing well, and has one of the finest orchestras ever organized in that city. He gets all the opera house playing; the greater part of the dance jobs and plays for two skating rinks.

Section 1. That tuberculosis is hereby declared to be an infectious and communicable disease dangerous to the public health.

Sec. 2. That it shall be the duty of every physician in the city of Paducah to report to the board of health of the city, in writing, the name, age, sex, occupation and address of every person having tuberculosis, who is now under the care of such physician, and such physician shall likewise hereafter report upon each case of tuberculosis that shall come under the observation of such physician for the first time, within one week of such time.

Sec. 3. That it shall be the duty of the commissioners or managers, or the principal, superintendent or physician, in charge of every public or private institution, dispensary or hospital, in the city of Paducah to report to the board of health, in writing, the name, age, sex and occupation and last previous address of every person infected with tuberculosis, who is in their care.

Sec. 4. In case of vacation of any apartments or premises by death from tuberculosis, or by the removal therefrom of a person or persons infected with tuberculosis, it shall be the duty of the person in charge, or the physician in charge, to notify the board of health within twenty-four hours, and such apartments or premises so vacated shall not again be occupied until duly renovated and disinfected as hereinafter provided.

Sec. 5. In case of the vacation, the board of health or an authorized representative, shall immediately visit said premises, and order and direct that such infected articles therein be properly and suitably disinfected.

FOLLOWS HUSBAND TO ETERNAL REST

Mrs. Myrtle Wallace Phillips Dies in Louisville.

Never Recovered From Shock of Husband's Death Last May and Sinks Slowly.

BODY BROUGHT TO PADUCAH

Never recovering from the shock of her husband's death last May, Mrs. Myrtle Wallace Phillips died in the Beechhurst sanitarium in Louisville, Ky., Sunday morning at 11 o'clock, after an illness of several months of nervous trouble and a general breakdown. The body arrived in Paducah this morning at 3:40 o'clock and was taken to the residence of her brother, Mr. H. E. Wallace, at 515 North Ninth street.

She was 32 years old and born in Metropolis, Ill. She came to Paducah in her early youth and had resided here since. She married Mr. George Phillips in 1893. He died May 18, 1906. Following his death the widow suffered a general breakdown, and was sent to Louisville for treatment 15 days ago. Her condition grew worse until death relieved her sufferings.

She is survived by her mother, Mrs. J. W. Wallace, and two brothers, Mr. Harry E. Wallace, of Paducah, and Mr. John Wallace, of Virginia. The latter has not been reached by telegraph.

Mrs. Phillips was a member of the First Christian church and one of the best known young women in Paducah.

The funeral services will be held at the residence of Mr. H. E. Wallace Tuesday afternoon at 3 o'clock, the Rev. W. E. Cave, pastor of the First Presbyterian church, officiating, assisted by the Rev. W. W. Armstrong. The burial will be at Oak Grove cemetery.

PADUCAH MAN MAY GET CARNEGIE HERO MEDAL

TIRED OF HER LIFE; TAKES CARBOLIC ACID

Daisy Hervill, of Savannah, Tenn., Ends Her Existence in Her Room At 719 Clay Street Sunday Afternoon.

LIVED HERE TWO YEARS

Despondent on account of ill health, Daisy Hervill, 19 years old, known in the red light as "Rosy," committed suicide Sunday morning at 10:30 o'clock at her boarding house, 719 Clay street. She drank four ounces of carbolic acid at 10:30 o'clock and from that time until she died at 12:15, she never regained consciousness.

She left a note addressed to her lover, in which she requested that she be buried in Paducah and gave some directions about her burial robes.

Daisy Hervill came to Paducah two years ago from her home near Savannah, Tenn., where her mother and several sisters and brothers now live. For two weeks previous to her death yesterday, she had roomed at 719 Clay street with Mr. and Mrs. J. J. Buckley.

Mrs. Buckley said she came to her home and requested a room, saying she was sick and without friends, while there she has been visited regularly by a physician, who treated her for malarial fever.

Saturday night she telephoned to E. Dunn's drug store at Seventh and

PAPERS PREPARED AND FORWARDED

Riley Pitman, Who Killed A Mad Dog With His Hands, Is Proposed

COMMISSION TO INVESTIGATE.

Louisville Citizen Calls Attention to Unusual Feat of Bravery of Blacksmitth.

WAS BITTEN BY THE ANIMAL.

Riley Pitman is a hero. He may be a Carnegie hero some time, for his name has been proposed to the Carnegie Hero Fund Commission, because he killed a mad dog with his bare hands on Sunday, September 23. Many Paducahans remember the incident, and the Courier-Journal had an editorial on the deed; but few people here reflected how unusual the feat was and how remarkable the courage that would prompt a man to tackle a mad dog bare handed.

Mr. Ferd L. Lutz, of Eighteenth street and High avenue, Louisville, has proposed Riley Pitman's name, and the papers preliminary to an investigation by the commission are being prepared.

He killed the dog just south of Adams street on Third street, and at the time a dozen or more men were pursuing it with guns and clubs. Riley Pitman met them as he was returning to his room after dispatching the animal. His hand was bleeding and some one said: "Did he bite you?" "What did he do after he bit you?"

"He died," said Riley Pitman as he hurried on.

Riley Pitman does not think he performed an unusual deed of valor, and he says the dog was "just a little woolly cur," as he fondles his biceps affectionately.

Riley Pitman is some six feet tall, straight as a sycamore and supple as a boy.

He works for J. E. Morgan and rooms at Third and Clark streets. At 216 South Third street just a few doors south of Pitman's room on the other side of the street, lives C. E. Miller.

Riley Pitman tells the story this way:

"I was in my room when I heard Mr. Miller's little girl scream for help. I rushed over to the house and they told me a mad dog had bitten her, and pointed south on Third street as the direction the dog had taken. I hurried on after it and caught up with it in front of Wes Orr's store below Adams street. The dog was snapping at a man and everyone was excited. I grabbed the dog by the throat with my left hand, and it snapped my right hand, its tooth making a deep hole in the calloused place in the palm of my hand. I got its hind legs in my right hand and drew its body back as far as I could reach on my right side. I let go with my left hand and swung the body at arm's length over my head. Its neck struck on the earthen as true as ever I struck an anvil with a hammer and the dog never moved. I got Dr. Boss to dress the wound. It was sore for a couple of weeks, but it is all right now."

It may be that some technicality may interfere with Riley Pitman's participation in the Carnegie fund or his receiving a medal. It may not be classified as saving life, like pulling a drowning man out of the river, or rescuing a human being from a burning building, but his deed was in defense of human life, and no man ever jumped into a river and dashed through the smoke and flame of a burning building, and to assume such risks as did Riley Pitman when he braved the horrors of the rabies to kill that mad dog.

Debutized Football.

New York, Nov. 26.—Football has a record of eleven deaths and 100 players seriously injured. This marked decrease is the most significant feature. Among high school players this year only seven received injuries which resulted in death.

Football Curtails Smoking Habit Among Paducah High School Boys

"Football has done the pupils of the high school a world of good in several ways," says Supt. C. M. Lieb, of the city schools. "It has decreased the use of tobacco among the boys, and it is worth while just to curtail the obnoxious cigarette habit. The effect of this was noticed in the game Friday with Hopkinsville. The Paducah boys did not smoke while training, and the Hopkinsville boys—that is some of them—did. The result was that the visitors were winded in a few minutes. The game Friday was one of the cleanest ever played in Paducah. It was a clean high school football game, and one of which both teams may well feel proud."

First Train Run Between Memphis And Paducah Since The Washout

Last night the first freight train was run between Memphis and Paducah since the washout. It was a manifest freight and was rushed through on the fastest schedule time possible under the conditions. The fact that traffic has opened up in the south does not relieve the congested condition in Paducah, and attention is generally turned to this city.

Every switch engine in the yards here is working. Every engine possible to make a fire under has been brought into service and shop foremen are rushing out what engines are in the shops for repairs.

Yesterday J. G. Neuffer, assistant superintendent of machinery of the I. C., was here looking over the mechanical department. He went to Memphis last night. Supt. A. H. Egan has been conspicuous in Paducah and on the district for several days, and every official has a keen eye out for every flaw to delay traffic until the congested conditions are relieved.

The freight discharged from Paducah yards is hardly noticed because of so much coming in from the north. Every piece of yard space possible to secure has been filled with cars.

ANOTHER RECORD

MAY BE BROKEN BY STRENUOUS PRESIDENT.

Roosevelt Expected to Return to Capital Tonight on the Tender Mayflower.

Washington, Nov. 26.—President and Mrs. Roosevelt will return from the isthmus of Panama and Porto Rico, just when the Mayflower will tie up at the yard is not definitely known, but if she reaches the capital during the night she will assist the president in breaking one more record. The president brings back a bunch of facts and information, which he will work up into a special message to congress.

Norfolk, Va., Nov. 26.—With President and Mrs. Roosevelt aboard the battleship Louisiana headed up the bay today the president and party will transfer to the Mayflower this afternoon.

Man Should Choose His Wife As She Chooses Dresses

Another Chicago Professor Enlightens American Public as to His Mental Equipment.

WHAT MAKES US SO NERVOUS.

Chicago, Nov. 20.—"If the people of America would keep the coming generation from inheriting mad-houses they should abolish indiscriminate marriages, forget that hallucination called love and choose their life partners on the same principle that a successful cattleman chooses his stock."

In the above sentence Dr. Julius Grinker, professor of nervous and mental diseases at the Chicago Post Graduate Medical school, voiced a warning to the American public of the great dangers which may confront it in the near future. He spoke in the public library building under the auspices of the Chicago Medical society on "American Nervousness, Its Cause and Cure." A large audience listened to the address.

Dr. Grinker eliminated all scientific terms from his lecture and told the audience in plain words of the nervous diseases which were slowly but surely eating their way into the lives of the people of this country. Considerable stress was laid on the subject of marriage and heredity, and the great evils which result from bad marriages were shown.

"Like begets like," said he, "and the nervous system bows to the law of all life—the law of heredity; the law that governs your life and mine. If we are bundles of unstable nerves and abnormal susceptibilities it is but little trouble to trace the cause back to our forefathers. The youth of today should be educated and compelled to choose his mate in the way that fine horses and cattle are chosen. When a man comes to marrying, he should choose his wife in the same way that she chooses a new dress."

Theatrical Notes

AT THE KENTUCKY.
Tonight—Arthur Dunn in "Little Joker."
Tuesday, Wednesday, Thursday and Friday with Thanksgiving Matinee DePew-Burdette Stock Company.
Saturday night and Matinee—Fantana.

Little Arthur Dunn.
Arthur Dunn and his own company of comedians, vocalists and dancers will appear at The Kentucky tonight in the new and original comedy with music, "The Little Joker," of which Herbert Hall Winslow is the author, the musical numbers being composed by William O'Day. Mr. Dunn will be well remembered as appearing here in "A Runaway Girl," and in the New York Casino success, "The Runaways," on the occasion of its first visit to this city. It is safe to predict that the same degree of success will be enjoyed by this clever comedian in his present role as scored by him in his former characterizations. An excellent supporting company will surround the star and the scenic embellishment, electrical effects and other details have received every attention. Marie Glauber, Anna Dale, Jean Salisbury, Kilty Nelson, are among the principal members of the company and are noted as present day stage beauties.

DePew-Burdette Stock Company.
"When the Bells Toll," one of the plays to be given by the DePew-Burdette Stock company during their engagement of four nights, starting Tuesday, is one of the most expensive royalty plays that can be secured by stock organizations. It has never been seen here, and this is its first season at popular prices anywhere. Among the supporting players is one who will add materially to the strength of the organization, that of Thomas N. Sullivan, well remembered for his clever work here several years ago as leading man. The sale of seats for Tuesday will start at 9 o'clock Tuesday morning and ladies will be admitted free if seats are secured before 5 p. m. of that day.

Fantana Saturday.
Authors of comic opera books are always desirous of finding queer places to use as locals with the result that nearly every land on the face of the globe and a good many imaginary ones have lent their atmosphere to the stage. It will be observed that the majority of nations

For instance, your old Dress Suit or Tuxedo will no longer be strictly up-to-snuff. The new evening coats have longer rolls and wider lapels; the new Tuxedo Coats have peaked lapels.

We have Dress Suits here at \$25, \$35 and \$40; Tuxedos at \$25 and \$35; Prince Albert Coats and Vests at \$20, \$25 and \$30—low enough in price for any young fellow who keeps in touch with the conventions, yet fine enough to please the man who paid a merchant tailor \$75 for his last suit.

You may be supplied in this direction, however, and in that case the new full dress requisites will have more interest for you.

selected for comic operas are in the Orient and strange as it may seem, Russia has been ignored. Japan is a strong favorite with the librettists. "Fantana" begins in California, the second act transpires in Nagasaki, Japan and the third act setting shows the deck of a yacht off the coast of China. "Fantana" is without a doubt the best musical comedy that has been written in recent years and the Messrs. Shubert have made a most elaborate and beautiful production of the same. The music was written by Mr. Raymond Hubbell and is exceedingly bright and catchy.

Old Line Insurance vs. Assessments

The late Edmund P. Noble carried insurance on his life in the old reliable **Mutual Benefit Life Insurance Co.** for more than thirty years, at the very low rate of about Fifteen Dollars per year per thousand. This low cost was due to our liberal dividends, ANNUALLY distributed. Had misfortune overtaken Mr. Noble, or had he desired, for any reason, the policies could have been cashed for about 90 per cent of their cost, or the Company would have loaned him that amount. This would have made the cost of his insurance only about

Two Dollars per Thousand per Year.

Fix this firmly in your mind and then compare it with your last assessment.

If you wish, we will use your Annual Dividends to make your policy an Endowment Policy and pay you when you are old. You don't have to die to win in this Company and our rates for insurance of this kind are from 4 per cent to 6 per cent lower than other companies' straight life rates.

If interested, call before the holiday rush.
We expect to be even busier than usual.

PRODIGY DIES

Tired of Life He Takes Artificial Gas.

At Ten Edited Paper and at Fifteen Robbed Bank in City of St. Joseph.

Kansas City, Nov. 26.—Tired of life at the age of 18, Richard Emmett Murphy, a traveling salesman, ended what had been a remarkable career here this morning, when, after writing a number of letters, he turned on the gas jets in his room and lay down to die.

His first attracted attention to himself when he was only 10 years old by starting the publication of a paper of his own in Jefferson City, Mo. The paper was a success in a way and the youthful editor was hailed as a prodigy.

After young Murphy's family had removed from Jefferson City to St. Joseph, Mo., he again sprang into prominence. After securing a position as a messenger in a bank, he was quick to learn many of the details of the business. Through this knowledge he made a successful robbery and was also able to secure considerable money on forged paper. For these misdoings he was arrested and sent to the state reformatory at Joplinville.

Before he had settled down at St. Joseph, however, Murphy had gained a wide-spread reputation for his intelligence and nerve. Leaving his father's home while still wearing knickerbockers, he traveled throughout the country with no other capital than his own ready wit and daring. At New York, where he stopped at the best hotels, much publicity was given to his meetings with prominent men at that time.

Sympathy and tenderness are the chords that best bind hearts together.

Eliza Sweeney Tries to Jump in Tennessee River But Is Prevented By Youth.

Because her son, Johnnie Dunn Sweeney, returned to Paducah and found her in a very drunken state, Mrs. Eliza Sweeney tried to drown herself in the Tennessee river Saturday morning, and was thwarted in her attempt by Clyde McKinney, son of Sarah McKinney, of Fifth and Norton streets. The boy grabbed her and held her from the water until patrolmen arrived.

"Yes, I do love my son, and when he came home unexpectedly and found me very drunk I thought it time to end it all," she explained to a reporter in court this morning after she was sentenced to 50 days in county jail.

Daily Thought.
"Advice is one of these things of which the more you give the more you have to give."

TO WHOM CREDIT IS DUE.

Last Saturday two hundred of Iowa's foremost citizens were the guests of the city of Paducah. In that delegation were Governor Albert B. Cummins, a presidential possibility and in every way a man of influence on his generation: lawyers, statesmen, politicians, bankers and men of affairs in their own communities. These men came from every section of the great state, 500 miles from Paducah. Every city, perhaps every county, of Iowa had a representative partaking of the unexpected hospitality of Paducah that afternoon. Every one of those delegates is a friend to Paducah; and, therefore, Paducah has no personal friends, always ready to say a good word for her, should others disparage, the very best and most influential people of Iowa. The papers of Sioux City, Council Bluffs and Cedar Rapids yesterday morning contained full accounts of Paducah's hospitality, written by their staff correspondents, who accompanied the party to Shiloh, and who, too, fell victims to the benign spell of Kentucky.

The papers of Iowa yesterday spoke to no less than a half million people in that and adjoining states about Paducah and her hospitable, wide awake citizens. The evening papers of Saturday mentioned it. The country weeklies will tell the rest of the people of Iowa before the week is out.

All these two hundred virile westerners saw Paducah, and saw her under the most favorable conditions. They were the honored guests of the city, prejudiced in her favor from the moment they stepped off the wharfboat, and when anyone speaks to them of Paducah, the incident will be recalled to their minds, and Paducah will receive a "boost."

Any man, who has traveled in a strange land, may appreciate in some degree the feeling which the Iowa tourists must entertain toward Paducah. When the reporter for The Sun, the first to greet the first boat load, told them of the plans, they were surprised. They had expected no kind of attention, and therefore the hospitable welcome was the more deeply felt.

This is casting our bread upon the waters. We do not know what may come of an act, which was only characteristic of a people, but we know nothing bad will come of it.

Paducah's location is most favorable to impress the stranger, the paved district makes a fine appearance, and in Iowa they believe she has a wise, broad-minded population.

Do you know what gave the Iowaans this impression concerning the character of Paducah's inhabitants? It was the Commercial club.

Without that live organization, nothing would have been done to entertain the guests of a day. The men in the Commercial club are trained to take advantage of such times to

exploit the city. The organization with its secretary on hand is always ready to put into immediate execution any ideas of one member that meet the approval of the others. It is on such occasions as this that the great benefit of a Commercial club is demonstrated. If any one in Paducah doubts the efficiency of this Commercial club, let him write to Iowa, and the probabilities are that he will receive in return a marked copy of an Iowa paper, or a warm letter, of appreciation. They know about the Paducah Commercial club in Iowa.

President Smith, of the Mormon church, celebrated the birth of his forty-fifth hopeful by his fifth wife, by paying a fine of \$20 in the criminal court. He threw himself on the mercy of the court, and since the court is a married man, he probably knew about how much the Smiths could stand without making the numerous other members of the family suffer. Being a married man in Utah means more than it does in other states, except Idaho. Back here a man may have five or a dozen wives consecutively, provided their demises are not too similar and prompt, and nothing is said of it; but when a man indulges in more than one wife at a time, he is apt to go to the works as well as pay a fine, without regard to the welfare of the numerous family the prisoner may leave unprovided for. That merely goes to show how much farther advanced are Utah courts along humanitarian lines.

What a poetic demise was that of the Shelbyville, Indiana, man, who went into the barn and missed the old family cow, which had been sold to the butcher; then, overcome with the utter emptiness of life without her, entered her stall, and hanged himself to a rafter with the selfsame balter, with which he had often, oh, so often, led hoes to the clover patch. What a lover he might have made had his prodigal affections been showered upon something less ephemeral than a family cow.

Mayor Schmitz was hugged by his admirers when he landed in New York. He will be pinched when he lands in San Francisco.

Caruso should go into vaudeville and sing, "Just Because I Made Them Goo-Goo Eyes."

WIPE OUT THE BLOT.

Besides other causes, there is one fruitful source of youthful depravity—failure to enforce the law. We have a law to oblige the attendance of children at school, but it is not enforced. Thousands of Kentucky children of school age do not go to school. We have a school population of 798,110, but the enrollment of pupils is 501,482 only, while the average daily attendance is 309,836.

Three boys were arrested a few days ago for robbing a young man near Newport of \$5.50. They held him up in the true highwayman fashion. These boys had been studying the daring deeds of Western desperadoes. They were diligent pupils of the street school of vice. But they neglected the school where character ought to be found and high ideals inculcated. These three boys are part of the vast army of 297,000 un-enrolled, or of the 200,000 enrolled but irregularly attending youths of school age in Kentucky.

Think of 490,000 youths of school age in this commonwealth practically going to no school but those of vicious intent and endeavor! If all the viciously inclined and unschooled boys should do as the Newport trio, what would be the situation? Thousands may at any time do so. The blind tiger, the dive, the gambling den, the low groggery, all draw their support from the youths who do not go to school.

Enforce the law. Double and treble the number of teachers and of schools. Bring education to the door of every home. Kentucky commits as many crimes as she has children not going to school, multiplied by every day's delay in providing for their education. The calling for a Greater Kentucky is mere sounding brass and tinkling cymbal so long as we suffer in our midst a "Darkest Kentucky," with nearly half a million of schoolless children.

REV. G. W. BANKS
AT TRIMBLE STREETGreeted By Two Large Audi-
ences Yesterday.Dr. Blackard Fills Pulpit at Broad-
way Methodist, the Pastor
Not Arriving.

DR. CAVE'S MORNING SERMON

The Rev. G. W. Banks, the new pastor of the Trimble Street Methodist church, arrived in the city from Memphis late Saturday night, and filled his pulpit Sunday morning and evening. He was greeted by large congregations and made a fine impression on his people. He preached two strong sermons, bearing directly on the new conference year and the relation of pastor and church to it.

Mr. Banks is one of the strong men of the Memphis conference. He comes to Trimble street from a successful four years at the Second Methodist church of Memphis. One important work done there was the building of a handsome new parsonage for that church. Mr. Banks is well liked in Paducah, where he at one time served the Third Street Methodist church. He returned to Memphis today and will bring his wife to Paducah on Thursday.

The Rev. J. W. Blackard, D. D., presiding elder of the Paducah district, preached yesterday morning at the Broadway Methodist church. Dr. W. T. Bolling, the new pastor of this church, having telegraphed he would be unable to come before next Thursday.

A large congregation was present to greet Dr. Blackard. His sermon was most appropriate to the occasion and was based on the text: "This one thing I do; forgetting the things that are past, I press towards the mark." Dr. Blackard called in the evening service to worship with the Trimble street congregation.

At the Third Street Methodist church a capacity congregation heard the Rev. P. H. Fields yesterday.

The Foreign Missionary societies of the Broadway Methodist church will observe the regular "Week of Prayer and Self-Denial" with special services on today, Tuesday, Wednesday and Friday afternoons at the church. "China" was discussed at the service this afternoon.

First Presbyterian Church.
The "Ministry of the Countenance" was the subject of the Rev. W. E. Cave's sermon at the First Presbyterian church yesterday morning. Taking his text from proverbs he spoke of the effect of the expression of the human countenance on men's conduct, encouraging or discouraging them.

Most of us would have more time in which to do things if we didn't have so much leisure.

TIRED OP HER LIFE;
TAKES CARBOLIC ACID

(Continued from page one.)

Clay streets and ordered four ounces of carbolic acid, saying that she wanted to use it as a wash. The medicine was delivered at 7 o'clock.

"I'm Going to Do It."

Sunday morning, Jessie Reeves, the colored cook, was cleaning up and observed the young woman sitting on the edge of her bed crying. After a while Daisy got up, went to the telephone and the cook heard her say, "I'm going to do what I told you last night."

Then she drank something out of a glass, which had been setting on the mantel walked across the hall to the room where Mr. Buckley was, and threw a wad of paper at his feet. Turning around she went back to her own room and laid down on the bed. The paper she threw at Mr. Buckley's feet was a note addressed to her lover.

The cook noticed her moving uneasily on the bed and found her unconscious with burns on her mouth caused by the acid. She notified Mr. Buckley.

He telephoned to Dr. E. R. Earle at the Illinois Central hospital, who directed him to give her an antidote, while he was on the way to the house. When Dr. Earle reached the house Dr. W. T. Graves already was there. All efforts to revive her were futile. Later Dr. J. C. Freeland arrived. She died at 12:45 o'clock.

Daisy Harvill lived at 1221 South Eighth street last before moving to 719 Clay street. She was of medium size and attractive.

Following her instructions left in the note she will be buried at 3 o'clock this afternoon in Oak Grove cemetery from Mattli, Effinger & company's undertaking parlors.

The verdict of the coroner's jury this morning was:

"We, the jury, being duly sworn to inquire into the death of Daisy Harvill, after hearing the evidence, decide her death was caused by an overdose of carbolic acid taken with suicidal intent, Sunday, November 25, 1906. Signed—T. J. Moore, W. T. Dwan, Nick Frakes, A. M. Rose, Edgar Harvick, L. R. Hart."

With a stage of 32 feet and more rain in prospect, the probable stage of the river here is not in sight. However, sharp falls in the upper course of the rivers will relieve the pressure somewhat. The stage this morning was 32.3, a rise of 2.6 in 48 hours. Business at the wharf was brisk.

If you have good eyesight, you needn't telephone to the wharfboat to find out what packets are in. Just take a look down Broadway and the wharfboat and packets will prevent you seeing the Illinois side.

The Electra, at the wharves is jam up against the engine and machinery house. And on the other side of the Electra is the river still rising. A barge for the C. & E. I. railroad was taken out today. It will not be possible to take the Clyde out until the river falls.

At the dry docks, the high stage does not affect the boats being repaired, but the docks are getting closer every hour to the Illinois Central trestle. If the river gets high enough they can float the docks on top of the Western District warehouse.

A special carload of officers and 36 roustabouts came in this morning from Nashville to go on the Buttorff and the Henry Harley. The Buttorff left at noon on the regular trip to Clarksville. The Henry Harley left today for Elizabethtown after a load of corn which she will carry to Nashville.

All the Cumberland river boats are running now. The Dudley, Henry Harley, the Dunbar are in the upper Cumberland. The Electra will get back as soon as repairs are completed.

When the Clyde comes in tonight, she will remain here until the river gets sufficiently low to go on the ways. The City of Memphis is at the wharf ready to take the Clyde's place Wednesday evening.

There is no doubt in the minds of
people who have suffered with the

relief can be secured from the Osteo-

Of course, some chronic cases
won't yield to any treatment, but in-

J. W. Wootan, the well-known woodworker, now retired, residing at 1402 Burnett street, says: "I have a high opinion of Doan's Kidney Pills because they do just what is claimed for them. I have had kidney trouble more or less for 15 years. After trying a number of remedies that gave me very little relief, if any, I got a box of Doan's Kidney Pills at Alvey & List's drug store and began to take them as directed. I found them to be the very thing for my trouble. In a few days I noticed a great change in my condition. Before taking the pills my rest at night was greatly disturbed, but now I can go to bed and rest as peacefully as anyone. I give all the credit for this to Doan's Kidney Pills."

RED MULE STRAYED.

And Driver Thought Owner Had Taken It Home.

W. M. Fowler, of Sharpe, Marshall county, came to Paducah Saturday driving a red mule. He had a negro boy with him and took the 6 o'clock train to Cairo, after loading the wagon with a quarter of beef, a cross-cut saw and other articles. The negro did not know his employer was going out of the city, and left the mule standing on Burnett street.

The little red mule strayed away and when the driver came out, presumed Fowler had returned and driven home. Fowler last night returned to Paducah in search of the mule and wagon. Both were in Charlie Clark's stable. It cost 50 cents to the city and \$1 to the liverman to redeem them. Fowler declares the stock law in Paducah is a good one. Not one of the articles in the wagon had been molested.

ROCKEFELLER PAYS FULL DUTY
William Tenders \$10,000 on Pictures but Gives Up \$10,000.

New York, Nov. 26.—William Rockefeller emerged today from an encounter with Uncle Sam somewhat the worse in pocketbook. When he was abroad Mr. Rockefeller engaged Herr Von Kaulbach, portrait painter to the Imperial court at Berlin, to paint two portraits of himself, one of his wife and one of his daughter. The four pictures arrived here four days ago.

Invoices attested by the United States consul general at Berlin showed that Mr. Rockefeller had paid the artist \$13,500 each for the paintings, or a total of \$54,000.

Appraiser Hecht, the customs expert, paid no attention to the invoices, and declared that each painting was worth \$20,000, which made the total \$80,000 instead of \$54,000. Mr. Rockefeller's agent rebelled and wanted to know if Appraiser Hecht doubted the truthfulness of the statement that the artist had been paid only \$13,500 for each portrait. Mr. Hecht stood firm.

The duty is 20 per cent of the appraised value. Instead of \$10,800, Mr. Rockefeller had to draw his check for \$16,000. This he did today under protest and the paintings were released.

Women in Our Hospitals

Appalling Increases in the Number of Operations Performed Each Year—How Women May Avoid Them.

Going through the hospitals in our large cities one is surprised to find such a large proportion of the patients lying on those snow-white beds women and girls, who are either awaiting or recovering from serious operations. Why should this be the case? Simply because they have neglected themselves. Female troubles are certainly on the increase among the women of this country—they creep upon them unawares, but every one of those patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at left or right of the abdomen, nervous exhaustion, pain in the small of the back, dizziness, flatulency, displacements of the organs or irregularities. All of these symptoms are indications of an unhealthy condition of the female organs, and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound has saved thousands of women from surgical operations.

When women are troubled with irregular, suppressed or painful periods, weakness, displacement or ulceration of the organs, that bearing-down feeling, inflammation, backache, bloating (or flatulency), general debility, indigestion, and nervous prostration, or are beset with such symptoms as dizziness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "want-to-be-left-alone" feelings, they should remember there is one tried and true remedy.

Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail.

The following letters cannot fail to bring hope to despairing women.

Miss Ruby Mushrush, of East Chicago, Ind., writes:

Dear Mrs. Pinkham:—I have been a great sufferer with irregular periods and female trouble, and about three months ago the doctor, after using the X-Ray on me, said I had an abscess and would have to have an operation. My mother wanted me to try Lydia E. Pinkham's Vegetable Compound as a last resort, and it not only saved me from an operation but made me entirely well.

Mrs. Alice Berryhill, of 313 Boyce Street, Chattanooga, Tenn., writes:

Dear Mrs. Pinkham:—Three years ago life looked dark to me. I had ulceration and inflammation of the female organs and was in a serious condition. "My health was completely broken down and the doctor told me that if I was not operated upon I would die within six months. I told him I would have no operation but would try Lydia E. Pinkham's Vegetable Compound. He tried to influence me against it but I sent for the medicine that same day and began to use it faithfully. Within five days I felt relief but was not entirely cured until I used it for some time.

"Your medicine is certainly fine. I have induced several friends and neighbors to take it and I know more than a dozen who had female troubles and who to-day are as well and strong as I am from using your Vegetable Compound."

Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, invites all sick women to write her for advice. Her advice and medicine have restored thousands to health. Address, Lynn, Mass.

PLENTY OF MONEY IN THE TREASURY

Uncle Sam Has Surplus On Hand At Present.

Looks Bright for Liberal Measures to Improve the Internal Waterways.

LAND FRAUD CASES DUG INTO

Washington, Nov. 26.—Uncle Sam's pocketbook is much larger this year than last and treasury officials are looking forward to an immense surplus fund when the fiscal year ends next June. At this time last year the government faced a deficit of \$14,500,000, but when the books were balanced this week it was found that there is the snug sum of \$15,000,000 reposing as a surplus in the treasury strong box.

One-third of this amount having been added in the first 20 days of this month. In the face of these facts there is reason to believe that the coming congress will be more liberal in its appropriations for public works. Chief among these is the rivers and harbors bill, which for the last ten years has carried a ridiculously small amount. It is the hope of those who believe in the development of the natural resources of the country, that the appropriation for this work will be \$50,000,000 annually for the next ten years. The condition of commerce, which has grown so much more rapidly than transportation facilities, demands that attention be turned to developing the natural channels of trade that have been neglected for a half-century. The railroads for the last three years have been helpless in the great tide of traffic that is growing so rapidly. With rivers deepened and widened, and ports prepared to permit of the operation of fleets of swift vessels and capacious barges, the transportation problem would be solved, freight rates would be greatly decreased and business all over the country would take on an added impetus. The question will be forced on the attention of the federal government next month, when the national rivers and harbors congress holds its convention here December 6 and 7.

Victim of Poison.
Dr. Wiley's "poison squad" is coming in for severe criticism this week because of the death of one of its former members, Robert Vance Freeman, 23 years old and formerly an employe of the department of agriculture, is the victim of the adulterated food fed him in the interests of science, according to his mother. Three years ago Dr. Wiley undertook experiments to determine the effects of borax and boric acid on the human system, and Freeman was one of the first to volunteer for the "squad." His mother declares the lad, although strong and hearty when joined the squad, quickly succumbed to the effects of the drugs and before the six-months' test was completed he was discharged. Then, she says, he went west in an effort to regain his health, but without result. The matter has occasioned a small scandal.

Conscience Money.
Succumbing to the tortures of an active conscience, an Illinois man has sent a check for \$400 to the "conscience fund." The letter containing the check was received by Captain L. M. Kelly, second deputy commissioner of pensions, and explained that the writer seven years ago dug a well for the government, the contract calling for him to go only deep enough to strike water. Feeling that the government could afford to pay a little extra money, the contractor did not stop digging when he struck water at a depth of 70 feet, but dug down 230 feet farther, thus increasing his earnings. The extra money billeted his conscience so that seven years afterward he eased it by restitution. The letter says:

"I have come to the conclusion that by getting money by going deep-

er than necessary is no better than stealing it, so I wish to return about what is right, with some interest."

Land Fraud Cases.
Secretary Hitchcock is going to explode a bomb before he quits office as head of the department of interior next spring. He is looking into charges of gross land frauds in Wyoming, and it is declared that some proud names will be smirched before the investigation is completed, for the frauds are reported to be as extensive as those of Oregon. The principal violations are laid at the door of the Union Pacific, which is said to have acquired vast coal properties by the simple expedient of having alleged "settlers" take up the land under the government grant, relinquishing their holdings afterward to the railroad company. It is said at the time protests were repeatedly made against the issuance of patents to such "settlers," but they were practically ignored.

Lynching Statistics.
Washington, Nov. 26.—The census bureau has undertaken a special statistical investigation of deaths resulting from homicide and suicide in the United States. Offenses dealt with by the different classes of criminal courts, during the period of one year, will also be investigated. The fact that statistics on lynchings will also be included lends additional interest to the proposed investigation.

The Charleston Courier Talks About Kitty League.

Takes Text From Wild Manderings of Writer Who Doesn't Know the Situation.

SUBJECTS FOR THE CEMETERY.

The following is a portion of an article from the Charleston, Ill., Courier relative to the future of the Kitty league:

"Several rumors going the rounds which state there will be no Kitty league next year are pronounced false, as there will be a Kitty league and the Urban park will retain its franchise and will have a league team next year.

"Jacksonville and Danville, members of last year's league, are trying to get into the Three-Eye league and will make it, providing they obtain the permission of the remainder of the clubs of the Kitty.

"The two clubs mentioned can have their release by paying \$2,500 each, as they must buy their release the same as a player. Should they fail to do this the national agreement would bar either city from entering another league.

"Paducah and Cairo will remain with the present league, as will also Urban Park. Vincennes and several cities are knocking for admission. Possibly Decatur, East St. Louis or Terre Haute may be admitted."

The foregoing is the biggest joke that has been perpetrated in Kitty league circles since P. D. Q. Green published his last learned essay. Jacksonville and Danville can get released from the Kitty league by paying \$2,500 each. Oh, mercy! That is more money than any of the teams in the Kitty league except Jacksonville and Danville saw last season. It sounds just like it emanated from the city in Indiana made famous by the novel "Alice of Old Vincennes," and Eddie Kolb, Hub Perdue, et al., members of the Kitty league team representing Vincennes. We expect to get out of the Kitty league and so does Danville and we don't expect it to cost a cent.

Whether we do or don't. Whether we get into the Two-Eye league or don't get into it. Or for that matter, whether we don't get into any league we are sure of one thing: We won't be in the Kitty league. The fans who put up the money to back the team will not have it, so that is settled for good and all so far as Jacksonville is concerned. We also hope Danville may cut loose, as she is too good a town to be tied up in that company.

The news that Vincennes is knocking to get into the Kitty league next year is also startling. It has appeared to us since the close of the season that Vincennes was about all that was left of the Kitty league. Of course, we always knew some of Vincennes population were adepts in the knocking line. About the only thing Vincennes, Cairo and Paducah are eligible to knock for admission into at the present is the baseball cemetery instead of any league. We wish Mattoon and Charleston luck in their reorganized league. We hope the town will form a strong enough association to get the team some new suits so that the ones they wore last season may be renovated. This would be a big job to tackle, but it should be done for the good of the health of the community if nothing else. Don't hold your breath, however, or depend on the \$2,500 from Jacksonville and Danville to help pay the new league's expenses. Just go ahead cultivating the broom corn crop in that section. It is the easiest and surest way to get the money.

NOTICE

To Electric Light and Power Patrons.

THE nature of the alternating electric current supplying light and power is to be changed very shortly. This will effect all of our customers having buzz fans and small motors that are attached to the same wires that supply light. If you have either a small motor or buzz fan we would thank you to advise us immediately in order that we may take the necessary steps to adapt your machine to the changed conditions. : : : : :

"Seeing the Southwest" EXCURSIONS

Doubtless you have heard of the Bumper Crops which have been raised this year in Arkansas, Louisiana, Oklahoma, Indian Territory, Texas and New Mexico. Have you compared them with results obtained in your section? Is your work where you are, bringing you adequate returns for the capital invested and the labor expended? If not, a change would be beneficial perhaps. A visit to the Southwest will open your eyes. Out in Oklahoma the last big land opening is soon to take place; farms are still very cheap in Western Arkansas, Northern Louisiana and the Gulf Coast of Texas. Let us give you full information about these sections. You will want to see them after you have examined our illustrated literature.

VERY LOW RATES, ONE WAY AND RETURN TRIP to southwestern points first and third Tuesdays each month.

Ghostly Fact About Lynchings.

The American Magazine for December contains two notable contributions to the store of knowledge of the negro question. One is an extraordinary unsigned letter from a southern woman. The other, an editorial, contains a statement of what must be considered the most ghastly fact about lynchings:

"No one can look at one of the photographs of a lynching without a sense of abysmal horror. It is not the horror alone or chiefly of the thing itself, the ugly, inanimate center of the tragedy. It is the faces of the spectators that shock our very souls. They are always laughing faces. Good nature, even jollity, seems to be the note of these gatherings. Always we see the faces of little boys grinning cheerfully towards the camera. There are women sometimes in the crowd, and sometimes little girls. There is no sign in these pictures of horror or death, even of grim satisfaction over a difficult and obnoxious task, performed by necessity. The man who called it a 'lynching bee,' appreciated the true feelings of the lynchers. Leave out the grim wreck in the center, and the picture might be taken for an ordinary cheerful gathering at a country fair. Leave it in, and oh, my brothers! It is not the dead, but the living that terrifies."

The Office and the Man.

"Private" Allen of Mississippi, while in congress, was fond of telling about a fine old gentleman down in Tupelo whose habit was to sit on a dry goods box and talk politics. His hobby was that the office should seek the man, and not the man the office, and he waxed eloquent in the discussion of his chosen theme. Finally he determined to become a candidate

himself and went out upon an electioneering tour. When his friends twitted him about his change of front, he replied: "Oh, yes, the office should seek the man, but the man should be around so that the office may find him."—Exchange.
